

Commercial Fiberglass Service Door

A Facility Manager's Solution to Costly Door Replacement

Special-Lite's Sandstone-Textured FRP (Fiberglass Reinforced Polyester) door is a durable and money saving solution to replacing old, rusty, hollow metal doors.

The BasiX™ Door features an innovative design that provides a one model fits all approach . . . or just about! Our universal design brings an "In Stock" durable door to handle those hollow metal replacement emergencies! Why settle for a hollow metal door when you have the option to replace an opening with a door that will outlast and outperform hollow metal?

Special-Lite's long-lasting BasiX Series Door is the perfect fit for the following applications:

- Restaurant service doors
- Retail service doors
- Warehouse
- Manufacturing
- Maintenance and utility service doors
- . . .or anywhere the door will be abused or forced to fight the elements.

***PATCHING,
REPAIRING,
REPLACEMENT***

***. . . are these words
in your maintenance
vocabulary?***

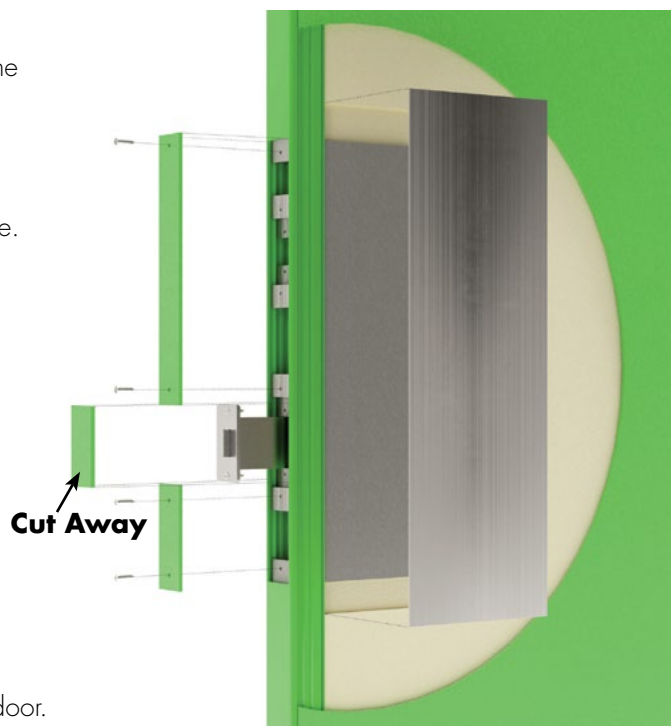

***Replace the endless
repair cycle by using***

Special-Lite® FRP Doors!

Commercial Fiberglass Service Door

Features and Benefits:

- Aluminum square edge stiles so doors are non-handed.
- Special-Lite's foamed in place 5 lb. density urethane foam core.
- Sandstone-Textured FRP face sheet combined with aluminum stiles and rails resist the constant rusting and rotting encountered with hollow metal.
- Undersized door width allows use of a continuous hinge since the door will be hanging around for a while!
- Door closer reinforcements.
- Innovative Lock Pocket (patent pending) adapts to a cylindrical lock, mortise lock or rim exit device of your choice.
- Adjustable latching reinforcement to adapt to the pre-determined strike heights.
- BasiX™ Doors are ready to paint any color.
- Designed to fit into just about any existing frame.
- Field add lite kits and louvers (few structural limitations exist).
- BasiX Door model #'s (model # signifies opening size):
 - **BasiX 3068** - 3'0" x 6'8"
 - **BasiX 3070** - 3'0" x 7'0"
 - **BasiX 3670** - 3'6" x 7'0"
 - **BasiX 4070** - 4'0" x 7'0"
- Two year warranty.
- **"In Stock"**....ask your Door and Hardware provider for Special-Lite's long-lasting versatile door.

Lock Pocket (patent pending) - supports cylindrical or mortise lock, or rim exit devices
