

AIA/CES (Continuing Education) Registered Provider Program Summary

Provider: Modernfold, Inc. **Provider Number:** H128

Program #: OPG333

Program: **Moveable Glass Partition Systems**

Length: 1 hour

Credits: 1 LU Hour **HSW:** YES **Sustainable:** YES

Description: This program explores the use of Moveable Glass Partition Systems to facilitate space management. The program addresses the benefits and features of the various types of glass partitions including panel construction and acoustical contributions as well as impact on the environment and the contribution to green initiatives afforded with moveable glass partitions.

Learning Objectives: After completing this program, participants will understand the impact of moveable glass partition systems in the built environment as it relates to health, safety, and welfare.

How taught: After a brief introduction by the presenter, a presentation will be made to cover the learning objectives, which includes graphics and pictures to help the learning process. At the end of the presentation, an interactive period will be provided for discussion.

Equipment needed: Electrical power for laptop, projector and a screen for the presentation.

Target audience: Architects, specifiers, owners, and other design professionals in the industrial/commercial market. Ideal audience size is 7-12 participants, although larger groups may be accommodated.

Facilitator Qualifications: All presenters are active participants in the operable partition industry and are fully qualified to present and discuss all aspects of this program. The Continuing Education facilitators receive in-house training on CES guidelines and presentation skills.

Costs: There is no cost to bring this program into a firm or chapter meeting.
